## Cargo treatment services brochure (CTS)

Flexible solution for your business needs

### Get On-Spec with Rockledge CTS

Today's ever increasingly dynamic trading environment demands a quick and flexible approach to meeting contractual obligations safely. Rockledge understands quickly how fuel traders align themselves to this change.

As the world is moving towards cleaner and high performance fuels, cargo additivation is becoming more critical. Fuel treatment is required to mitigate the logistical challenges affecting distribution chain.

Safety is our number one priority, we work with a wide variety of additive suppliers/manufacturers on efficient handling of additives by promptly obtaining before hand the MSDS.

Our company technicians have the technical know how and will provide guidance for effective and professional cargo treatments solutions.

Inspired by our vision and guided by our core values....

**Trustworthy**

**Efficiency**

**Professionalism**

Rockledge East Africa has the ability to treat cargoes safely, quickly, and efficiently using highly trained, experienced technicians and certified equipment thus minimizes demurrage.

We are readily available to respond to where you need us.

Site treatments include inline dosing for vessels, in tanks, terminals, barges, trucks as well as rail to meet fuel specification or regulatory requirement.

### Benefits of our Cargo Treatment Services (CTS)

At Rockledge CTS, we will continue to drive change and innovation in order to help you resolve product quality challenges by providing tailor made unrivalled services. Some of the benefits include;

- Tailored solutions for optimum results

- Cost effective additive dosing backed by our flexibility and quick response.

Rockledge provides high quality services and added value to our clients. Our dedicated, well trained technicians are able to cater all your additivation needs including provision and arranging solutions for the state of the art dosing equipments either at the Storage terminal, ships and even pipelines.

# Cargo treatment services

Delivering on our promise

## Our Approach

We believe for Cargo Treatment to be effective, parties need to embrace a holistic approach. Many vessels owners/charterers are reluctant to allow online dosing fearing cargo contamination. With years of experience, Rockledge East Africa Cargo Treatment Service assures you-our prospective clients that no additive we'll find its way into the cargo tanks. Rockledge East Africa has identified three key components highlighted below to aid in seamless dosing exercises;

**Scope Definition, Intervention, Transparent reporting.** We act as the independent and trusted third party by providing manpower and/or equipments altogether to handle clients additivation needs in one or multiple locations.

**Scope definition;** The Scope and the Framework of the Inspection work as defined in the nomination by the client is agreed upon by Rockledge East Africa. The requirements are considered as the **minimum** steps to be taken when conducting dosing operation.

**Intervention ;** Our work instructions forms the basis and guides how our objectives/mission will be accomplished. In onboard pre-discharge meeting, we discuss and agree with the chief officer the best possible ways of doing the in-line injection.

**Transparent Reporting;** We understand 'speed is the language of business' without which our clients are exposed to demurrages. In addition to our regular updates, we furnish our clients with detailed cargo treatment report backed with photos of samples drawn from receipts tanks/on board drumming and in-tank blending.

Ships manifold arrangement ready for the connection of pneumatically operated dye injector at the sampling point.

Our full range of Marine Services-Cargo Treatment Services are ideally suited for Ship owners, charterers, shipping agency, inspection companies, traders, importers etc. and can be accessed on our website at [www.rockledgeafrica.com](http://www.rockledgeafrica.com) or by email us a request through [info@rockledgeafrica.com](mailto:info@rockledgeafrica.com)
