BUNKER SURVEYS

OPERATIONAL EXCELLENCE

At **ROCKLEDGE**– the Marine & Technical Surveys dept. constantly striving for operational excellence in all our undertaking. This is not only reflected in how we conduct every-day business, but also embedded in our DNA. Our Bunker Surveyors are steadfast and understand the complexity and tricks of bunker surveys. We are strategically positioned to maintain high efficiency exceeding customer's demands by adhering to acceptable **CODE OF PRACTICE FOR BUNKER SURVEYING**. Predominantly, **BUNKER LOSSES** has been a perennial problem affecting **SHIPPING LINES, CHARTERERS & VESSEL OWNERS**. Whereas, it might be attributable to varied factors, our team narrows down investigation to each factor with a view to understand the circumstances. Based on our widespread knowledge backed with years of experience, we have gained acceptance and credibility among our varied clientele in Shipping and Marine industry.

WHAT'S IN IT FOR YOU?

You'll benefit from our team of Specialists' Bunker surveyors available 24/7/365 and understand the technical know-how and we'll advise you accordingly. Over the years, our teams' been able to recover tones of concealed fuels and averted numerous cappuccino effects saving charterers and owners millions of dollars.

Bunker fuel quality analysis is paramount in every operation; we are aware of the dangers associated with fuel mixing especially when the batches are incompatible. To mitigate this, we have invested in **Fuel Compatibility Analyzer** giving us real time results (Compatibility+Stability) of the blended fuels even as the bunker transfer is ongoing.

Our specialists' will also be giving you real time updates on the progress of the operation at the comfort of your office/houses even when thousands of miles away from the actual exercise.

WHO ARE WE?

We are a team of Marine and Bunker Surveyors based in Mombasa with operation and offices in East Africa region. With a combined experience of more than 20yrs, our surveyors are able to respond to any assignment within short notice due to our close proximity to port facilities. We are licensed by the Kenya Ports Authority as Marine Surveyors. We have specialized ourselves in conducting surveys including BQS, BIS, ROB, Sludge Surveys, On/Off Hire among others.

WHAT DO WE DO?

We believe for Bunker Surveys to be effective, parties involved need to embrace a holistic approach and join efforts to increase accuracy. Three key components aid us in accomplishing our missions.

Scope Definition, Intervention, Transparent reporting. We act as the impartial, independent and trusted third party to provide the necessary comfort and service levels for our principals.

Scope definition; The Scope and the Framework of the Inspection work as defined in the nomination by the client is agreed upon by ourselves. The requirements are considered as the **minimum** steps to be taken when undertaking condition surveys.

Intervention; Our work instructions forms the basis and guides how our objectives/ mission will be accomplished.

Transparent Reporting; In addition to our regular updates, we furnish our clients with a detailed survey reports.
