

Rockledge East Africa Limited

Off/On Hire Bunker & Condition Surveys brochure

Flexible solution for your business needs

Delivering on our promise...

When buying, selling or chartering a vessel, an independent bunker and condition survey provides you with documented proof of the actual condition of the vessel. Rockledge East Africa bunker and conditional survey of a vessel is considered a key component used in establishing the actual condition of a vessel before delivery into a charter or redelivery from a charter.

Our surveyors inspect the vessel's certificates, all compartments and accessible parts of the vessel to be used by the Charterer. Additionally, we record the condition of holds, hatches, main deck and loading gear. A detailed report on the findings shared can be used to substantiate claims that may arise as a result of damage to the vessel or cargo

Our surveyors are steadfast and are backed with technical expertise hence are able to offer market leading quality Condition surveys

Inspired by our vision and guided by our core values....

Trustworthy

Efficiency

Professionalism

Benefits of our Bunker & Condition Surveys

Whether On/Off Hire. A condition survey is usually done in combination with a bunker quantity survey and is carried out when a vessel is delivered to the Charterer or re-delivered to its Owner. The survey can be carried out on behalf of Owners, Charterers or for mutual interest. Our surveyors are available 24/7/365 days. Some of the benefits include;

- Highly professional and well versed with condition surveys technicalities
- Detailed report to meet and exceed customers' requirements
- Confidentiality-reliability
- No subcontractors.

Rockledge provides high quality surveying services and added value to our clients, our survey report can be of assistance to substantiate claims from Owners towards Charterers or to decline a claim towards the Charterer.

Bunker & Condition Surveys

Our integrity, your confidence

Our Approach

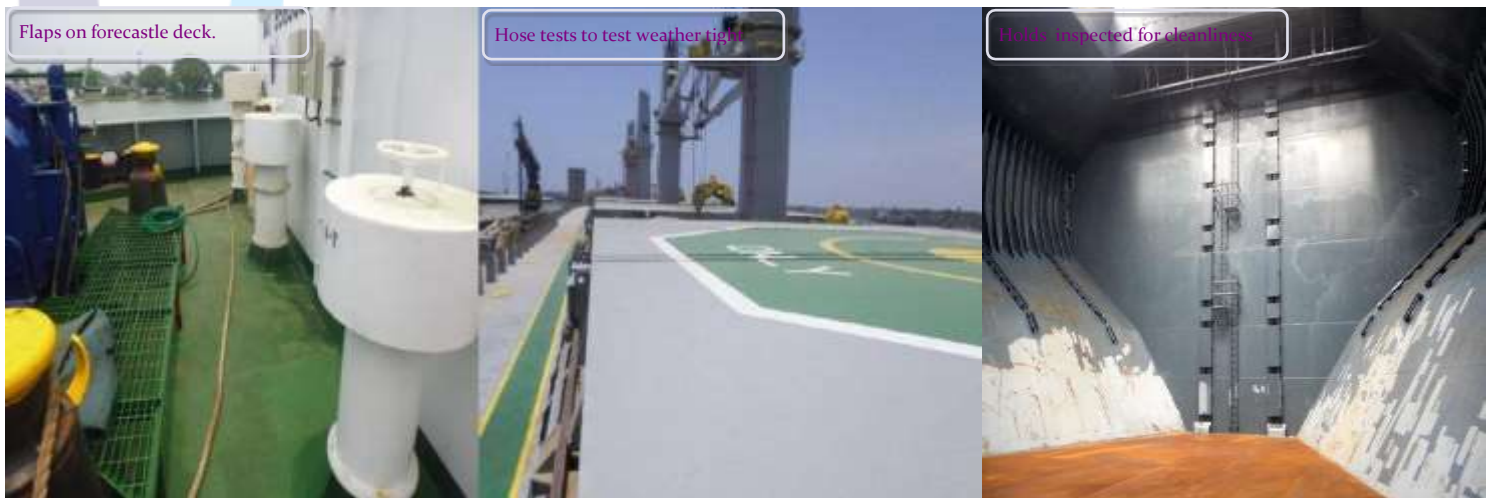

We believe for draught surveys to be effective, parties involved need to embrace a holistic approach and join efforts to increase accuracy. Rockledge East Africa has identified three key components highlighted below;

Scope Definition, Intervention, Transparent reporting. We act as the independent and trusted third party to provide the necessary comfort and service levels for our principals.

Scope definition; The Scope and the Framework of the Inspection work as defined in the nomination by the client is agreed upon by Rockledge East Africa. The requirements are considered as the **minimum** steps to be taken when undertaking condition surveys.

Intervention; Our work instructions forms the basis and guides how our objectives/mission will be accomplished.

Transparent Reporting; We understand 'speed is the language of businesses without which our clients are exposed and so is accuracy. In addition to our regular updates, we furnish our clients with a detailed survey reports backed with photos of the extent and nature of defects realized during the inspection. samples received from receipts tanks/on board drumming and in-tank blending.

Our full range of Bunkers & Conditions Surveys are ideally suited for vessel owners and charterers and can be accessed on our website at www.rockledgeafrica.com or by email us a request through info@rockledgeafrica.com
